

1:1 HOUSE CLEANING GROWTH COACHING AGREEMENT

This 1:1 House Cleaning Growth Coaching Agreement (the "Agreement") is entered into as of _____, 20____ by and between Alex _____ and Elijah _____ (together, the "Providers," "we," "us," or "our") and the student(s) listed below (the "Student," "you," or "your").

Student 1 Legal Name	
Student 2 Legal Name	
Business Name	
Business State	
Primary Email	
Primary Phone	

1. Program and Investment

You are enrolling in the House Cleaning Skool 1:1 Coaching Package (the "Program"). The investment is \$6,000.00, paid through Klarna over 12 months, plus CRM access at the discounted rate of \$147.00 per month for as long as you keep the CRM active.

Klarna is a separate payment/financing provider. Your payment arrangement with Klarna does not change the terms of this Agreement or the Program access terms below.

2. What Is Included

- Lifetime access to the highest tier of the House Cleaning Skool for as long as the Skool and program exist. Translation: the plan is for Skool to live forever, but if the internet gets hit by a meteor, we are not liable for the meteor.
- Access to all SOPs, templates, training materials, scripts, systems, and resources made available inside the Program.
- At least 60 minutes of 1:1 time weekly during the active coaching period, plus direct access to message Alex through your business Discord.
- Hands-on support to help set up and optimize the marketing system needed to profitably acquire house cleaning clients, including the practical pieces required to get leads, book jobs, follow up, and track performance.
- A VA sourcing and training process: we will personally help source and choose a VA alongside the head trainer, then put that VA through an 8-week bootcamp at no additional cost to you other than your responsibility to pay the VA.

3. Discord Access and Response Expectations

Alex will be inside your business Discord and you may message him there. Normal response expectation is within 24 business hours, Monday through Friday, excluding holidays, emergencies, travel weirdness, or the occasional human moment. That said, Alex is not going to

fall off the face of the planet; he has his phone on him like every other semi-functioning adult in 2026.

Discord access is for business coaching, execution questions, strategy, feedback, and support. It is not unlimited emergency consulting, legal advice, tax advice, HR advice, or therapy.

4. VA Sourcing and 8-Week Bootcamp

We guarantee we will help source and place a strong, qualified VA candidate into the bootcamp process. Internally we may call this a "killer VA," but for legal purposes that means a VA we believe is capable, trainable, and a good fit based on the information available during sourcing and screening.

The 8-week bootcamp is for your VA, although you are welcome to join. Bootcamp details may be described on a separate page, onboarding document, schedule, SOP, or training outline. We may update the format, curriculum, trainer, cadence, or delivery method as long as the purpose remains training the VA for the relevant house cleaning business operations role.

You are responsible for paying the VA directly and for all hiring, firing, employment classification, payroll, tax, legal, HR, and compliance obligations connected to that VA. The VA is not our employee, agent, contractor, or representative unless separately agreed in writing.

5. Marketing Setup and Optimization

We will help you build, set up, and optimize the marketing system needed to acquire house cleaning clients profitably. This may include, depending on your business needs, offer creation, ads, landing pages, CRM setup, automations, lead follow-up, call scripts, booking flows, tracking, review systems, and related client acquisition assets.

You are responsible for third-party costs, including but not limited to ad spend, domains, websites, software, phone numbers, call/text/email usage, payment processing, contractors, designers, virtual assistants, or other tools needed to run the business.

6. The Guarantee

Our guarantee is simple: we will help you add \$10,000 per month in revenue to your house cleaning business and build a system that allows you to maintain that added revenue and continue growing while working less than 10 hours per week within 3 months. If that does not happen, we will keep working with you for free until it does, subject to the requirements below.

This is a revenue and systems guarantee, not a promise of net profit, personal income, valuation, exact margins, specific ad metrics, or a perfectly smooth ride. Business is still business. We bring the system, coaching, marketing setup, VA training, and pressure. You bring implementation, ad spend, and not ghosting the process.

7. Requirements to Claim the Guarantee

To qualify for the guarantee, you must act in good faith and materially complete the implementation requirements we assign. This includes, at minimum:

- Be willing and able to spend money on advertising and other reasonable client acquisition costs. The exact amount may vary by market and strategy, but \$0 in ad spend is not a serious attempt at a paid marketing system.
- Attend scheduled coaching calls or provide reasonable notice if rescheduling is needed.

- Implement assigned actions, systems, offers, follow-up, hiring steps, and marketing changes in a timely manner.
- Provide access to the business information needed for us to diagnose and optimize the system, including lead data, ad data, booking data, revenue data, and relevant CRM information.
- Track revenue and lead sources consistently so the added revenue can be measured. Alex will help with this.
- Maintain professional communication with us, your VA, your clients, and any relevant team members.
- Not materially change the business, pause execution, stop taking clients, shut down ads, fire the VA without replacement, ignore the CRM, or disappear and then ask why the business isn't growing as fast as expected..

If you do not meet these requirements, the guarantee may be paused, extended, or voided at our reasonable discretion.

8. CRM Access

CRM access is billed at the discounted rate of \$147.00 per month. You may cancel the CRM at any time. Canceling the machine we are using to help make you money would be flat out stupid. Canceling CRM access may limit our ability to support, track, optimize, automate, or fulfill parts of the Program and may affect your eligibility for the guarantee if the CRM is materially needed for implementation.

9. No Refunds or Cancellation of Program Investment

All Program payments are final and non-refundable. There are no cancellations, chargeback games, "I changed my mind" refunds, or partial refunds after enrollment. The remedy for dissatisfaction is the guarantee described above: if you qualify and the guaranteed outcome has not been reached, we keep working with you for free until it is reached.

10. Student Responsibilities

You remain the owner and operator of your business. You are responsible for business decisions, client work, pricing, hiring, insurance, taxes, licensing, employment practices, subcontractor relationships, customer service, operations, bookkeeping, legal compliance, and all other obligations connected to running your company.

We may provide coaching, templates, SOPs, suggestions, examples, and systems, but you are responsible for deciding what to implement and for confirming that your implementation is lawful and appropriate for your specific business, state, market, team, and customers.

11. Legal, Tax, HR, Employment, and Compliance Disclaimer

We are not your lawyers, accountants, tax advisors, payroll providers, HR department, insurance agents, or compliance officers. Nothing in the Program is legal, tax, accounting, HR, payroll, employment, insurance, or regulatory advice. You agree to consult qualified professionals for those matters.

You agree that we are not liable for business losses, employee or contractor issues, client disputes, tax problems, ad account restrictions, platform changes, customer complaints,

chargebacks, wage claims, employment classification issues, regulatory matters, injuries, property damage, or any other issue arising from your operation of the business.

12. Intellectual Property and Confidentiality

All SOPs, templates, scripts, trainings, systems, automations, documents, frameworks, videos, and Program materials are owned by us or licensed to us. You receive a limited, non-transferable license to use them inside your own house cleaning business.

You may not copy, resell, publish, share, distribute, teach, package, upload, sublicense, or give away the materials to anyone outside your business. You also may not use them to create a competing coaching program, course, community, agency, VA training company, CRM product, or consulting offer within 2 years of signing this agreement.

13. Case Study, Testimonial, and Marketing Permission

You give us permission to use your name, business name, likeness, screenshots, messages, calls, revenue numbers, wins, before-and-after metrics, testimonials, and results as case studies, ads, social posts, sales materials, Skool content, emails, webinars, videos, and other marketing. Yes, we want you to win. Also yes, we are in it for us too. That is how capitalism works.

We may edit for length or clarity, but we will not intentionally misrepresent your results. Upon request, we may anonymize sensitive personal information when reasonable, but the default permission is broad because this Program is designed to create public proof.

14. Non-Solicit and Team Protection

During the Program and for 12 months after your last active participation, you agree not to directly hire, solicit, contract with, bypass, or attempt to work around our trainers, team members, contractors, VAs, candidates, partners, vendors, or internal resources except through the Program or with our written permission.

15. Limitation of Liability

To the maximum extent allowed by law, our total liability under this Agreement is limited to the amount actually paid by you for the Program, excluding ad spend, software, VA pay, payroll, third-party services, or other business expenses. We are not liable for indirect, incidental, special, consequential, punitive, or lost-profit damages.

16. Arbitration, Texas Law, and Disputes

This Agreement is governed by the laws of the State of Texas. Any dispute, claim, or controversy arising out of or relating to this Agreement will be resolved by binding arbitration in Texas, rather than court, except for claims related to intellectual property, confidentiality, non-solicit obligations, payment collection, or injunctive relief.

In normal English: if there is a serious dispute, we are not turning it into a dramatic courthouse miniseries. We handle it through arbitration in Texas like adults who would rather spend their energy building businesses. Honestly, if it comes to this, you've royally screwed the pooch somehow and are not willing to put the same effort we are into making you successful.

17. Entire Agreement and Updates

This Agreement, together with any referenced onboarding page or bootcamp outline, is the entire agreement between the parties regarding the Program and replaces prior messages, calls, sales conversations, texts, DMs, or informal descriptions about the Program. Any material changes must be in writing and agreed to by the parties, except that we may improve or update delivery methods, training materials, SOPs, and Program processes over time.

18. Electronic Signatures

Electronic signatures, including signatures through DocuSign or a similar platform, are valid and binding. By signing, the Student confirms they have read, understood, and agreed to this Agreement.

Signatures

Leave both student signature blocks in place even if only one student signs. If there are two owners/spouses/partners in the business, both should sign.
